

MAUD MULLER.
Maud Muller, on a summer's day,
Hid her jug in a pile of hay.
The judge came by on his Arab steed,
And he was a very dry man, indeed.
"Aha," said he, with a winsome wink,
"Now where can a dry man find a drink?"
She put her finger in her mouth,
And slyly said, "A half mile South."
So the judge he galloped likeliest split,
Which showed that Maud had a pretty wit.

Arthur Brown, colored, aged about 23, was found dead by the side of the C., F. and S. E. Railroad a short distance from Flemingsburg Tuesday. He was in the city Monday and started home drunk. He was put off the train just after it left Johnson Junction, and later he started to walk to Flemingsburg. He was seen no more until found dead.

Beginning with tonight the revival services at the Third Street Methodist Episcopal Church will begin at 7:15 o'clock instead of 7. The day meetings will continue to be held at 2:30 o'clock. Good sized audiences attended both services yesterday, considering the weather. The service last night was of a character to enlighten the minds and hearts of all, and to bring them into a complete surrender to God that they might have the peace spoken of in the text, "Therefore being justified by faith we have peace with God."

COUNTY COURT DAY

Free Ferriage, Free Seed Corn,
Free Seed Potatoes

Next Monday, March 4th, County Court Day, there will be free ferriage for our Ohio friends.

The Board of Trade has determined to give out the corn exhibited at the Tobacco Fair in packages of five ears each, and the potatoes, five to the package, for the purpose of furnishing seed to those persons who wish to improve these two crops.

This will be done at John Duley's office 215 Court street, beginning at 10 o'clock Monday morning, March 4th.

No one need apply before that time, and no one will be entitled to more than one package each of corn and potatoes.

Do not come before 10 o'clock, as the distribution will not be made until that hour.

The packages will be given out in the order in which applications are made and if you wish to get a good start for seed corn and potatoes, you should not overlook this opportunity.

THE BOARD OF TRADE

MAYSVILLE FAIR

Set the Ball in Motion for An Old
Time Genuine Fair

How about a fair this fall?

It is not too early to agitate the subject, and during the leisure hours that most people are enjoying at this season of the year, talk the matter over and further along set the wheels in motion for a real old-time country fair this fall—the kind we had in ante-bellum days, when hospitality was of the real, genuine sort.

While the majority of the grand and noble men of those days are peacefully resting 'neath the sod, there are left behind sons, worthy representatives of gallant and chivalrous sires, who by heritage are best fitted to put in motion and carry to a successful conclusion an affair of this kind.

The Maysville Fair Company has already spent considerable money in securing and putting in shape ample ground space for the holding of a fair, and by united action on the part of citizens of this city in lending aid and financial assistance an exhibition can be held this fall that would reflect credit on the promoters and redound financially to the best interest of the merchants of Maysville.

We need something going on during the summer and fall to attract strangers here that they may see what a pretty and substantial city Maysville under the hills really is, and what a clever set of people make up its citizenship.

Let all join hands and boom the Fair, and in doing so boom the good old town.

District Deputy Gordon Suler will pay an official visit to Paris Lodge of Elks Tuesday, March 5th.

At Lexington, Judge Watts Parker decided that \$100,000 worth of Western Union stock owned by Clara Bell Walsh of St. Louis was exempt from state, county and city taxes. The decision is far-reaching because it involves a principle that to tax stock in the hands of an individual stockholder after the corporation had paid taxes to the state, county and city on a general franchise would amount to double taxation, which Judge Parker holds would be subversive of the spirit of the law of this state.

STRANGE Mr. Jerome hasn't asked Evelyn if she smoked cigarettes?

FEBRUARY is indeed a prolific month. WASHINGTON, LINCOLN and LONGFELLOW! What a trio of characters! To father these three would make any Nation great.

TODAY, February 27th, is the one hundredth anniversary of the birth of HENRY WADSWORTH LONGFELLOW, America's greatest poet. He died in 1882 universally honored as our leading poet.

SINCE the last Democratic Tariff was succeeded by a Republican measure the exports of American manufactures have doubled. No Tariff has ever been as successful as the Dingley law in connection with an increasing foreign trade.

A scheme for free trade between the United States and Canada would be possible only when both countries had the same tariff, the same customs administrative law, and the same restrictions of all kinds, against importations of goods from abroad. And that time is not likely to come, in this generation.

SELF-DEFENSE is the first law of nature, and to hear a man tell it himself you would think that all men are angels. Now comes the Mormon Senator, REED SMOOT, who declares he is one of the very best American citizens and is a model of civil and religious conduct; same time there is no telling how many wives he has in Utah. But there have been worse men than Smoot in the Senate.

REV. I. J. SPENCER, Pastor of the Central Christian Church at Lexington preached last Sunday night on "the Gospel and the Thaw case." He likened the experiences of EVELYN THAW to EVE and referred to WHITE in the role of Satan. Madison Square tower must represent the Garden of Eden.

The public is tired of the whole Bailey affair. The verdict is signed, sealed and delivered that BAILEY is guilty of the charge of accepting large sums of money from an auxiliary concern of the Standard Oil Company. Mr. BAILEY wept on the witness stand; he also raged and cursed and called the witnesses liars, etc. Pretty spectacle for a dignified United States Senator. He had better have made a clean breast of it or thrown himself on the mercy of the investigators. But wouldn't that have been a holy show?

The Interstate Commerce Commission continues to be bombarded with letters protesting against its strict construction of the anti-pass provision of the new railroad rate bill. Some of them are of a facetious nature. One correspondent of the commission dropped into rhyme, fashioning his ebullition after a popular song as follows:

Everybody walks but father,
He rides 'round all day;
Big mogul on a railroad,
He don't have to pay.
Little John is walking,
Also brother Will,
So's the whole damn family
Since Hepburn passed his bill.

SOMETHING NEW IN KENTUCKY.

Fairbanks of Indiana and Shaw of Iowa were stumping Kentucky. After a successful meeting the Kentucky Colonel who had the two Republican statesmen in charge invited them into the hotel barroom for refreshment's.

"What'll you have?" he asked Senator Fairbanks.
"A little cold apollinaris," was the reply.
"And you?" said the host to Governor Shaw.
"I think I will have a glass of buttermilk."
The barkeeper turned to the Kentuckian. "What shall I give you, Colonel?" he asked.
The Kentucky gentleman heaved a long sigh. "Under the circumstances," he said, "I think you can give me a piece of pie."

CONSTIPATION

"For over nine years I suffered with chronic constipation and during this time I had to take an injection of warm water every 24 hours before I could have an action on my bowels. Happily I tried Cascarets and today I am a well man. During the nine years before I used Cascarets I suffered untold misery with internal piles. Thanks to you I am free from all that this morning. You can use this in behalf of suffering humanity."

Judge Cochran Must Appoint Commissioner in Injunction Case

It is now up to Judge A. M. J. Cochran of the United States Court for the Eastern District of Kentucky to appoint a Commissioner of his own choosing to take the evidence in the case in which the railroads of the state are seeking to enjoin the Kentucky Railroad Commission from putting into effect an order making a sweeping reduction of twenty-five cents a hundred on all freight on all the railroads in the state.

The attorneys for the railroads and the Kentucky Railroad Commission held a final conference at Louisville Monday and failed to come to any agreement in the naming of a person whom Judge Cochran might appoint as Commissioner.

After several names had been proposed and discussed the attorneys thought best to pass the matter up to Judge Cochran and he will likely name the Commissioner within the next few days.

Superintendent FOUNDRY

GROWING OF ALFALFA

Colonel C. C. Degman Gives Some Interesting Facts on Subject

Colonel C. C. Degman was down from Springfield last Friday in attendance on the Farmers' Institute, and was specially interested in the address of Mr. Joseph E. Wing of Ohio on "How to Succeed With Alfalfa."

For the past few years Mr. Degman has been experimenting with alfalfa, and the following will be of great value to the farmers who contemplate adding this plant to their farm products—

Editor Public Ledger: Apropos of the very interesting lecture on alfalfa, by Mr. Wing of Ohio, at the Opera-house February 22d, I am constrained to make a few observations along the line of my own experience with the plant. For a number of years before I made the test, I felt sure that alfalfa would be a success in Mason county, notwithstanding the assertions of the doubting Thomases to the contrary. So in the spring of 1904 I prepared about one-third of an acre of rocky limestone bottom land, of medium fertility, upon which I sowed six pounds of seed, April 16th, using a common hand seeder, setting the seed so as to have enough left for cross sowing to prevent stripes, wishing very much to have a perfect stand. April 22d I visited my alfalfa "patch" and found to my delight a perfect blanket of tiny plants, somewhat resembling cabbage or morning glory plants, when they first appear. I think that more seed was used than necessary, and will say here that it is my opinion from experience, that fifteen pounds to the acre, if the land is properly prepared, is amply sufficient. About the first of June my plants had grown to the average height of twelve inches. I then ran over it with the mower (detaching the switch), clipping it as close to the ground as the sharp sickle would cut, it leaving the clipping on the ground. Thirty days later I repeated the clipping, leaving a much larger amount on the ground, this cutting being much taller than the first. About the

last of August I clipped it the third time, taking off some 500 pounds of cured hay. I have learned since that I should have cut or pastured it off again before frost.

In April, 1905, I seeded two acres more, making the same thorough preparation of the seed bed; part of this seeding was on thin clay land and I got a splendid stand with fifteen pounds to the acre; but was a little unfortunate, as the back water from the May rise in the Ohio got over a portion of it, leaving such a deposit of silt that much of it was destroyed. My first patch was then almost ready to cut, and the backwater spoiled about half of it, i. e. the hay, but did not materially injure the plants, as I have continued to take about a thousand pounds of cured hay from that patch at each cutting, and in some proportion off the two acres seeded in 1905. Having 40 years and more experience in grass seeding of various kinds, I now firmly believe we have come upon the plant to which at least 90 per cent. of Mason county soil is adapted, and that our farmers should not fail to sow an acre or two, and become also convinced that it is almost a crime to continue to sow timothy, which everyone knows is a soil exhauster. Experiment and learn how much better it is to raise alfalfa, which is within itself a complete ration for all kinds of stock, and a joy forever when it comes to the fruit question. It is self-fertilizing and should come in as the base of a four or five year rotation.

The seed weighs 60 pounds to the bushel, and heretofore has cost about the same as red clover seed. I hope it will not be higher this season, as I want to sow 15 acres this spring and summer; i. e., I will try some fallow ground after early harvest, thereby outflanking the crab and foxtail grass that are some seasons very annoying and destructive to spring sown grasses. I shall also sow one bushel of oats with each acre, as a nurse crop, with my April seeding, cutting the same when the oats begin to bloom, putting the whole up as hay. Burley is also said to be especially good managed the same way.

Our native sweet clover, heretofore recognized

as only useful as a honey producer, is now known to contain all the fertilizing qualities as properties required by the alfalfa plant, the bacteria of each being the same, and differing materially from that required by the common red clover, thereby proving that wherever sweet clover flourishes alfalfa will grow, and every observing farmer knows that if allowed, sweet clover grows anywhere in Mason county. Therefore, we need not send abroad for soil to inoculate our fertile domain. The lecture: "How to Succeed with Alfalfa," by James E. Wing at the Opera-house Friday evening, was splendid. The facts and excellent suggestions given by him were largely from personal experience and should have been heard by every progressive farmer in Mason county.

The Farmers' Institute organized on that occasion is composed of and offered by some of our most progressive farmers, and it will be a proud day for old Mason when every live farmer has his name added to that list. Yours truly, C. C. DEGMAN.

OUR PRIDE IS IN THE WORK HARNESS

Department of our store. By giving special attention to the most minute details we turn out Harness whose longevity rivals that of the Deacon's wonderful one-horse shay, which, as you all know, was so wonderfully constructed that it did not wear out in any one particular place, but, after being used for one hundred years to the minute, went to pieces all at once. Our workmen, being skilled at their work, know, as did the Deacon, that "Tis mighty plain that the weakest place must stand the strainin', 'n the way 't fix it, 'n I maintain 'is only jes' to make that place 'n strong 'n the rest." We can give you the names of some of our customers to whom we sold work harness when we first went into business, and which is still as good as new. Do you not think this is full value received for every cent invested?

The new Senate amendment to the Pure Food Law requires that the date of the manufacture of all canned meats must be printed on the labels on the cans.

The exportation of iron and steel manufactures reached their highest record during the past year, according to figures compiled by the Bureau of Statistics of the Department of Commerce and Labor. The total of these products exported in the calendar year 1906 aggregated \$172,500,000, an increase of \$30,000,000 over the preceding year.

The Senate has passed the pension appropriation bill which carries \$145,000,000.

During the past few days twenty-five freight engines, built by the Baldwin Locomotive Works, have been received by the Louisville and Nashville Railroad and placed at various points over the system where the congestion is worst. Each engine cost \$15,000, and is one of the heaviest types built. The engine proper weighs 177,000 pounds, and the tank weighs 137,000 pounds.

MOTHERHOOD

MRS. DANIEL SULLIVAN

Unquestionably preparation for healthy maternity is accomplished by Lydia E. Pinkham's Vegetable Compound more successfully than by any other medicine, because it gives tone and strength to the entire feminine organism and renders it perfectly normal.

A woman in good physical condition transmits to her children the blessings of a good constitution. Read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sullivan, 589 E. 7th Street, Flatbush, N. Y.

"What a blessing Lydia E. Pinkham's Vegetable Compound is to motherhood. I send you a picture of my three months' old baby and myself, and the photo shows the splendid condition of our health. That I am so well and the baby so healthy and happy is entirely due to your excellent remedy Lydia E. Pinkham's Vegetable Compound. I took it for five months before baby came and it brought me an easy confinement and kept me strong, whereas I was weak and in perfectly miserable health all the time when my first three children were born."

Mrs. Geo. Walters of Woodlawn, Ill., also writes: "I feel it my duty to tell of the good Lydia E. Pinkham's Vegetable Compound has done me and to recommend it to all expect-

tant mothers to insure a healthy child and easy birth. I had lost three children and was discouraged when a friend advised me to try Lydia E. Pinkham's Vegetable Compound. I did so and it not only kept me well and strong but I have a healthy child as you will find anywhere. I hope other discouraged women may read this letter and take Lydia E. Pinkham's Vegetable Compound and be benefited by it as I have been."

Women should remember that for more than thirty years Lydia E. Pinkham's Vegetable Compound has been without a rival in sustaining woman's health and curing all those painful ailments peculiar to her sex. Its record shows that it has cured almost every form of female complaint, organic troubles, inflammation and ulceration, falling and displacements and consequent spinal weakness, and is peculiarly adapted to the periods of child-birth and change of life. It cures backache and all those bearing down sensations.

If there is anything about your case you do not understand write to Mrs. Pinkham, Lynn, Mass., for advice. It is absolutely free. Thousands of women have done so and have received help.

SONS OF VETERANS

Why Not Revive Camp, Once Flourished Here

At the next meeting of the State Encampment of the Grand Army of the Republic the matter of the revival of the Sons of Veterans needs to be looked into. Soon the Civil War Veteran will have passed off the boards and none will be left to take his place.

Why the Sons of Veterans have died out and disbanded is not easily explained, and that it is so is very much regretted.

At one time here in Maysville flourished an excellent Camp of Sons, but it died out, and has gone "where the lion roareth and the whangdoodle mourneth for its first born."

What's the matter boys? Why not revive and come to live again.

The cross-examination of Evelyn Nesbit Thaw was finished by Mr. Jerome yesterday afternoon at 12:40. To sum up the result of Jerome's mouthy work, he has accomplished very little for the prosecution; but has brought out the hidden inside facts of Evelyn's fast life and that she has been for the past six years a member of the demimonde who knows all the ropes and can make monkeys of men like White, Thaw or even Jerome. Evelyn is strictly up-to-date and knows her business from start to finish. ALL MOTHERS SHOULD READ THIS LETTER

DAUGHTER OF C. W. STUMP.
 Mrs. C. W. Stump of Canton, Ohio, writes: "I wish I could induce every mother who has a weak, sickly child to try that delicious cod liver preparation, Vinol. Our little daughter was pale, thin and sickly. She had no appetite and no ambition."

"We tried various medicines, but without any benefit whatever, and she could not take cod liver oil or emulsions, as they nauseated her and upset her stomach."

"Learning that Vinol contains all the medicinal and strength-creating properties of cod liver oil, but without the disagreeable oil we decided to try it, and the results were marvelous. It gave her a hearty appetite; the color returned to her cheeks and she is stronger and in better health than she has been for years."

"I cannot say enough in favor of Vinol for weak, delicate children."

Our local druggist, J. C. Pecor, says: "We have never sold a medicine in our store equal to Vinol for delicate, ailing children, weak old, people, or sickly women and children, and we return money if it fails to benefit."

J. C. PECOR, Druggist.

NOTE—While we are sole agents for Vinol in Maysville, it is now for sale at the leading drug store in nearly every town and city in the country. Look for the Vinol agency in your town.
